Works in Progress

“Monarchical Distribution: Land Grants and Civil Conflict”

“Are Uncles Evil?”

“Autocratic Patronage Cycles: Descriptive Evidence from the Lives and Deaths of English Monarchs”

“Taking Off the Emperor’s Clothes: Concubinage in Autocracies” with Giang Pham

Original Datasets

Rebellions in Late Medieval England (Complete)

The dataset geolocates rebelling counties for 32 civil conflicts during the late Medieval and early Renaissance periods in England (1226 to 1572).

Goods Distributed by English Monarchs (In Progress)

Combining grants, patents, and licenses from the Calendar of the Charter Rolls, Calendar of the Patent Rolls, and the Letters and Papers of Henry VIII, this dataset collects and categorizes all patents and grants distributed from every English monarch from Henry III to Elizabeth I. Over 480,000 grants, patents, and licenses are categorized into 24 types of goods (e.g., land, cash, government position, monopoly rights, etc.) and geolocated, when possible, to English counties.

Rebels and Loyalists During the Second Barons’ War (Complete)

This dataset digitizes the names of loyalists and rebels during England’s Second Barons’ War (1264 - 1267) and matches participants to the goods they accrued from the English crown prior to the war.

Royals in Conflict (In Progress)

For 32 European countries between 1000 and 1800, this dataset determines the role monarchs’ brothers play in civil/international conflict, brothers’ ecclesiastical positions, and brothers’ noble titles.

Ecclesiastical Appointments (In Progress)

The dataset collects names, ranks, and biographic information (i.e., age, relation to royal families, and birthplace) on all catholic bishops and cardinals between 1000 and 1800. Additionally, for all cardinals, the dataset compiles information on major bureaucratic appointments within the Vatican.

**Grants,
Awards, and
Fellowships**

Dean's Teaching Fellowship (2026-27) *\$31,500*

Professional Development Support Fund, Emory University (2025) *\$2,126*
